FAX Response

Date: 3/10/2005

FAX #: 703-305-3597

Total Pages: 1

Application No.: 10/806,017
Applicant: Robert J. Lemire
Filed: 03/23/2004
Title: Hook and Cord Hanging System
Art Unit: 3632
Examiner: Sterling, Amy Jo
Office Action Date: 2/15/2005

Dear Ms Sterling;

This FAX is an official notification of "selection of species" for the above referenced application.

Species I: Figs. 1 and 2 are selected for this application.

The Claims readable on this selection of species are Claims 1, 2, 3, & 4.

If possible, I would like to include a new claim that simply reverses the orientation of the "Hanger Body" and the "Double Beveled Bracket"; so that the "Hanger" is affixed to the object and the "Bracket" is affixed to the wall.

I assume that this can be done after I get the next office action.

I hope that this response will clear the comments presented in your office action dated 2/15/2005.

Yours truly,

Robert J. Lemire
